

5 Ton Air Press

Pictre is of similar unit, not of 5 ton unit.

The 5 Ton RAM Air Press™ can be used in forming a wide range of ceramic objects including bowl, plates, tiles, and art pieces. While maintaining the artistic, handcrafted qualities of custom designed pieces, a variety of clay bodies including porcelain can be used. The 5 Ton RAM Air Press™ come ready to plug into your air compressor. The cylinder, stroke and daylight will allow you to quickly press small tiles or several pieces of jewelry with each motion. The working surface takes a 14" diameter die as well as RAM's special 13 x 17 rectangular case developed specially for this press.

Press Features

- 5 Ton pressing capacity
- Easy to operate
- Protective safety shields
- Adjustable die stops to control thickness of pieces
- Compact single unit construction
- Quick (3-5 strokes/min.)
- Two hand controls for safety
- 14" Open day light
- Large 15" x 21" working surface

Additional dies made to your requirements and mounted in RAM Die Cases for use on this press are also available.

The 5 Ton RAM Air Press at \$10,345.00 includes:

1 5 Ton Press
