

Table Top Press-XL

The TABLE TOP RAM Press™ can be used in forming a wide range of ceramic objects including necklaces, buttons, tiles, art pieces and earrings. While maintaining the artistic, handcrafted qualities of custom designed pieces, a variety of clay bodies including porcelain can be used. The TABLE TOP RAM Press™ Package comes complete with a working die and cases. The press is ready to plug into your air compressor. The cylinder, stroke and daylight will allow you to quickly press small tiles or several pieces of jewelry with each motion. The working surface takes a 10" diameter die as well as RAM's special 10 x 10 square case developed specially for this press.

Press Features

- 2-1/2 Ton pressing capacity
- Easy to operate
- Protective safety shields
- Adjustable die stops to control thickness of pieces
- Compact single unit construction
- Quick (3-5 strokes/min.)
- Two hand controls for safety
- Large 11" x 11" working surface
- Convenient table top construction

Additional dies made to your requirements and mounted in RAM Die Cases for use on this press are also available.

The Table Top RAM Press Package at \$4,365.00 includes:

- 1 TT-XL Press
- 1 Roll around cart with foot pedals
- 1 Set of die rings
